DIVISION OF SCIENCE RESOURCES STATISTICS

The Division of Science Resources Statistics (SRS) fulfills the legislative mandate of the National Science Foundation Act to ...

provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal Government...

To carry out this mandate, SRS designs, supports, and directs periodic surveys as well as a variety of other data collections and research projects. These surveys yield the materials for SRS staff to compile, analyze, and disseminate quantitative information about domestic and international resources devoted to science, engineering, and technology.

If you have any comments or suggestions about this or any other SRS product or report, we would like to hear from you. Please direct your comments to:

ACKNOWLEDGMENTS

Federal Scientists and Engineers, 1998–2002, was prepared by John Tsapogas, Senior Analyst, National Science Foundation (NSF), Division of Science Resources Statistics (SRS), Human Resources Statistics Program (HRS), under the overall direction of Nancy Leach, Program Director, NSF, SRS, HRS. Tanya R. Gore, Rolfe Larson, and Cheryl S. Roesel of the SRS

Information and Technology Services Program (ITSP) provided editorial assistance and final composition for this report. Peg Whalen, ITSP, oversaw electronic publication. Westat Inc. of Rockville, MD, prepared the tables, charts, and report copy. The Office of Personnel Management provided the data from the Central Personnel Data File.
